SECTION A - SUPPLEMENTAL INFORMATION

1. The purpose of this modification is to revise the MOA in relationship to the material costs within the "QUANTITY BREAKS" section, which states "If the desired quantity exceeds the established range, WDH will obtain revised material quotes from vendors to determine a new unit price for the increased quantity."

2. WDH is in the process of going to a paperless quoting system with their suppliers. Basically all of WDHs suppliers sign up to their web site and submit quotes for a specific set of part numbers for required quantities at certain times throughout the year. The set-up of this system is in its final stages and should enable WDH to respond to our customer's requests for proposals and quotations much more quickly and accurately than experienced in the past. Our suppliers are periodically asked to update their quotes in the system. The frequency of the updates for a particular part number depends on part cost and activity (more expensive and/or more active parts will be quoted more often). We are trying to insure that no parts are more than two (2) years old and those that have expired will be escalated to now year dollars using the agreed upon DRI indices. The expired quotes will be updated when the part numbers come around again in the update schedule, per Mr. Bill Thompson of WDH. Therefore, the preceding paragraph supersedes the previous section in the MOA relating to "QUANTITY BREAKS".

3. The maximum quantity ranges for CLIN's 0007 (Bracket Mounting) and 0042 (Boot, Dust Moist) were increased from 50 to 250 and are reflected in Attachment 007.

4. Attachment 007 is hereby incorporated into the contract and will be utilized for buys thru 30 Apr 2004.

5. All other terms and conditions will remain unchanged.
